

Learning Visual Basic.NET

By Jesse Liberty

O Reilly Media, Inc, USA, United States, 2002. Paperback. Book Condition: New. 214 x 149 mm. Language: English . Brand New Book. Most Visual Basic books are written for experienced object-oriented programmers, but many programmers jumping on the bandwagon are coming from non-object-oriented languages, such as Visual Basic 6.0 or from script programming, such as JavaScript. These programmers, and those who are adopting VB as their first programming language, have been out of luck when it comes to finding a high-quality introduction to the language that helps them get started. That's why Jesse Liberty, author of the best-selling books *Programming C#* and *Programming ASP*, has written an entry-level guide to Visual Basic . Written in a warm and friendly manner, this book assumes no prior programming experience, and provides an easy introduction to Microsoft's most popular language. *Learning Visual Basic* is a complete introduction to VB and object-oriented programming. This book will help you build a solid foundation in , and show how to apply your skills by using hundreds of examples to help you become productive quickly. *Learning Visual Basic* introduces fundamentals like Visual Studio , a tool set for building Windows and Web applications. You ll...
