Forgotten Books, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Transactions of the Hom pathic Medical Society of the State of New York, Vol. 36: For the Year 1901 The next point in the text to notice is the utter uselessness of one diuretic of good reputation and the striking success of the other. The action of an appropriate diuretic is always striking and prompt. I know of no other rule for its selection. The selection must be somewhat haphazard and by their works you will know them. Next, in the text case, we must notice the uselessness of purgatives. In the older text-books, they are universally recommended for dropsies and in the advice of more modern works it appears to be a matter of indifference whether the water is removed by the bowels, the skin or the kidneys. The only writer in whom I have found a decided Opinion on this subject is Rademacher, who wrote in the early part of the last century. I translate as follows: In the treatment of dropsy, purgatives that simply evacuate quantities of water from the bowels without increasing the urine are of little use; for the water accumulates again quickly. On the other hand, the slight irritation of the bowels, caused by a laxative, often increases the urinary ow. This action is uncertain but it is only in those cases of dropsy in which the purgative brings the disturbed urinary excretion back to the normal that the remedy is truly curative.
