EMPLOYEE OWNERSHIP AND SHARED CAPITALISM: NEW DIRECTIONS IN RESEARCH

Cornell University Press, United States, 2011. Paperback. Book Condition: New. 214 x 138 mm. Language: English . Brand New Book. One of the most persistent and important, but often ignored, trends contemporary market economies continues to be the ownership of firms by their employees. Since the emergence of different experiments with employee ownership in the early twentieth century, a growing group of companies and expanding set of institutions have opened the door for firms to share the financial returns of economic production with broad groups of employees. The growth of various forms of shared capitalism has meant that currently a little under half of all employees in the private sector own stock in the companies in which they work or receive cash-based bonuses linked to different measures of corporate performance. Employee ownership is a complex phenomenon that can be and has been fruitfully analyzed from a number of different social scientific perspectives. This book showcases the diverse state of cutting-edge academic work on shared capitalism in the United States and Western Europe. Its chapters present a representative cross-section of current research, lively debates, and new research initiatives. Employee Ownership and Shared Capitalism illuminates shared capitalism's complexity as an organizational, psychological, sociological, and economic phenomenon that requires deep interdisciplinary understanding. Contributors: Serdar Aldatmaz (University of North Carolina); Saïoa Arando (Mondragon University); Daphne Perkins Berry (University of Massachusetts Amherst); Joseph R. Blasi (Rutgers, The State University of New Jersey); Francesco Bova (University of Toronto); Marco Caramelli (INSEEC Business School); Edward J. Carberry (Erasmus University); Adrienne E. Eaton (Rutgers, The State University of New Jersey); Fred Freundlich (Mondragon University); Monica Gago (Mondragon University); Derek C.
