

Three Reports on the Use of the Steam Coals of the Hartley District of Northumberland in Marine Boilers, by W.G. Armstrong, J.A. Longridge, T. Richardson. with an Appendix

Filesize: 8.95 MB

Reviews

Unquestionably, this is the greatest job by any author. It really is simplistic but shocks inside the fifty percent in the book. I am just pleased to inform you that here is the greatest book i actually have go through within my own existence and could be he greatest ebook for at any time.

Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1858 edition. Excerpt: .hydrogen would be those to which, in the boiler experiments, most air, or, in other words, the largest opening of the damper, had been accorded; but in this respect either no attention has been paid, or an opposite system pursued, because we find that whilst the area of the damper draught has not unfrequently been 112, 126, 132, or even 168, with varieties of Welsh coal, the highly hydrogenated Hartley coals have been pretty uniformly limited to 56, 84, and 112 as a maximum. The effect of this regulation has been to cause a prodigious difference in the results from each of these coals--differences which are, in fact, greater upon one and the same coal than can possibly exist between very different descriptions of coals; and yet these discordant and artificially created variations are summed up into an average, which is put down as the true heating power of the coal in question. Similarly other cases have been treated, in which more air has been admitted than was necessary for combustion, and, therefore, the heat has been carried off into the chimney; and here again an average is struck upon a principle not less grossly incorrect than it would be to measure the height of a man's body when he lay on his back, then again when he stood upright on his feet, and take the mean of the two as his real altitude. I have arranged these two classes of cases under the...
