Brand New Book ***** Print on Demand *****.The Sound of Color was created while the author, Andrea Parris, was studying music and art for early childhood and education. I believe it is very important to make reading material available in a variety of styles for young readers. I also believe it is equally important that the material is applicable to children of every race, creed and color. - Andrea Parris The Sound of Color has an educational component that pertains to color and music fundamentals. It also stirs the imagination of its readers as they enter a fictional world without these creative outlets. Children worldwide will enjoy this short story s captivating tale.
