

## The Syndetic Paradigm

Filesize: 8.45 MB

### **Reviews**

*A top quality publication and also the font employed was interesting to learn. It is really simplistic but excitement within the fifty percent from the book. Its been designed in an remarkably basic way in fact it is only following i finished reading this pdf where in fact changed me, modify the way i believe.*

State University of New York Press, United States, 2007. Paperback. Book Condition: New. 223 x 150 mm. Language: English . Brand New Book. In The Syndetic Paradigm, Robert Aziz argues that the Jungian Paradigm is a deeply flawed theoretical model that falls short of its promise. Aziz offers in its stead what he calls the Syndetic Paradigm. In contrast to the Jungian Paradigm, the Syndetic Paradigm takes the critical theoretical step of moving from a closed-system model of a self-regulatory psyche to an open-system model of a psyche in a self-organizing totality. The Syndetic Paradigm, in this regard, holds that all of life is bound together in a highly complex whole through an ongoing process of spontaneous self-organization. The new theoretical model that emerges in Aziz s work, while taking up the fundamental concerns of its Freudian and Jungian predecessors with psychology, ethics, spirituality, sexuality, politics, and culture, conducts us to an experience of meaning that altogether exceeds their respective bounds.
